

Innovate UK

Regenerative medicine BHC-07-2019 - addressing unmet clinical needs of large patient groups

Partnering event – hosted by the UK and Sweden

The Swedish Research Council, Vinnova, Enterprise Europe Network, Innovate UK, and the Knowledge Transfer Network are pleased to announce a partnering event focused on fostering and facilitating R&D project consortia for Horizon 2020 funded projects for topic [BHC-07-2019 - Regenerative medicine: from new insights to new applications](#). Projects should focus on innovative translational research to develop regenerative processes towards the ultimate clinical goal of addressing unmet clinical needs of large patient groups. For a more detailed description of the topic please follow the link directing you to the Funding and Tenders Portal of the European commission.

The event, open to SMEs, larger companies, technology centres, universities and research organisations, will provide a platform for new translational research, commercial and technological collaborations, especially between UK and Swedish businesses and research organisations. We anticipate hosting approximately 60 participants from mainly the UK, and Sweden but also participants from the other Scandinavian countries are welcome to register.

Why Participate

If you are looking to lead or participate in a collaborative R&D project for this funding opportunity, this event will:

- Give you access to opportunities with like-minded companies and research organisations
- Enable you to find new partners for collaboration both from UK and Swedish industry and academia
- Help you establish cross-border contacts for collaborative R&D
- Inform you about the research and innovation ecosystem in Europe

You can find the registration link [here](#).

Date: 10th of January 2019, time: 10:00 – 15:30, with registration and coffee from 09:30.

Venue: Vinnova, Mäster Samuelsgatan 56, 101 58 Stockholm
